NEXCONEC® high-density 1U SLG modular fixed frame accepts up to 6 SLG modules or adapter plates for a total of 72FO with LC configuration. This modular panel is ideal for multi-applications, including those using MPO systems. It features advanced front access with extended front cable fixing tray and a hinged cable management bar that protects patch cords and allows for clear labeling.

SLG fiber optic panels are crucial and versatile components in today's fiber optic networks, accommodating a diverse range of applications across various industries. They provide reliable solutions for efficient fiber management and connectivity.

The frame is supplied unloaded, and the modules and adapter plates are supplied separately.
