NEXCONEC® 19" floor standing cabinets are high quality, competitive cabinets that offer real value for money in today's market.

Our cabinets consist of a cold-rolled steel frame chassis, a choice of glass and steel doors. All round access is available via removable side panels, while the front or rear doors have quick release pins for easy removal. Front and rear mounting angles are fully adjustable through the depth of the cabinet.

Earthing kit and foam cable entry glands are included in the base. A robust design and attractive styling combines strength and appearance; ideal for office environments, data networking, broadcast, security and audio visual applications.

FEATURES

- ✓ Lightweight but strong cold-rolled steel frame and corner castings
- ✓ Adjustable feet
- ✓ Quick and efficient levelling
- ✓ Multi-function top panels

APPLICATIONS

- ✓ FTTx Networks, Datacenter, Enterprise
- ✓ Data communication Networks
- ✓ Indoor Application
