

MILLER FIBER CABLE STRIPPER – CFS-3

Browse on Mobile

 Browse on Web

The Miller CFS-3 Fiber Optic Stripper, with 3-hole designed to precisely remove 1.6mm to 3mm fiber jacket, 600 to 900-micron buffer and 250-micron acrylate without scratching or nicking the fiber. Factory-set blade notches require no adjustment. A stripping guide on the handle is convenient for fast operation.

FEATURES

- ✓ Pre-set at the factory—no adjustments needed
- ✓ Will not scratch or nick glass fiber
- ✓ Precise tolerances to assure clean, smooth strips
- ✓ Comfort-grip, ergonomic handles
- ✓ Easy operation
