 [Browse on Web](#)

NEXCONEC® SC Simplex Shutter Adaptor is designed for applications where laser safety and dust protection are important factors. It is suitable for FTTH and other telecom applications. It has a high precision zirconia alignment sleeve designed for high reliability and excellent repeatability in single mode networks.

FEATURES

- ✓ High precision zirconia alignment sleeves
- ✓ Low insertion loss
- ✓ High repeatability and stability
- ✓ High quality and durable shutters
- ✓ IEC, TIA and Telcordia compliant
- ✓ RoHS, REACH compliant

APPLICATION

- ✓ Patch panels, wall outlets
- ✓ Fiber to the home applications
- ✓ Broadband
- ✓ Indoor applications

SPECIFICATIONS

Parameter	Value	Conformance Standard
Insertion Loss (Typical)	0.1dB	IEC 61300-3-4
Mating Durability	500	IEC 61300-2-2
Receptacle Retention Force	2N ~ 5.9N	IEC 61754-4
Operating Temperature	-25 ~ +70 °C	IEC 61300-2-22
